AMERICAN MACHINES BUILD MACEDONIA

(Correspondence Associated Press)
SALONKI, May 7.—Large consignments of American agricultural machinery has been unloaded here for use in Macedonia. The motor plows are badly needed on account of the dearth of horses and oxen which the Bulgars carried off with them. In the last six months the American Red Cross has been instructing Greeks and Serbs in the use of modern farm machinery and American methods of soil improvement and now farmers are being given the opportunity to buy implements at advantageous prices.

King Alexander of Greece is much interested in American farming machinery. Recently a very large consignment of agricultural machinery and implements arrived in Athens from America. The consignment composed all classes of power machinery and a considerable number of motor plows. King Alexander viewed these plows at the Athens Botanical Gardens. At his request, two or three of them were set to work in an adjacent field, attracting from first to last his special attention. Later these American machines and implements were exhibited at the Zappelon, the large exhibition building in Athens used during the war as a hospital. There they were visited by landowners, farmers and the general public.

The Greek government shipped a number of these motor plows and other implements to eastern Macedonia and Thessaly to be used for the spring cultivation. In addition thousands of ordinary American plows are being shipped into Macedonia. To pull these plows the Bulgarians finally agreed after much discussion to deliver seven hundred draught animals per week to the Greeks in recompense for the tens of thousands of animals taken by the Bulgarian army in Thrace during the war.

Owing to the fact that farmers throughout the near east cultivate only small tracts small size American machinery is in greater demand than the heavier machines, with the possible exception of harvesters. Only large owners can afford the large plowing tractors.

The American Red Cross has brought in about 300 American farm wagons and later these wagons and

the many small American automobiles now being used in the near east will be sold to the farmers. The near east is in greatest need of means of transportation and farming machinery and Americans are now meeting this demand.

SOVIET SYSTEM GREAT MENACE

(Correspondence Associated Press)
BERLIN, May 15.—The radical Spartacist danger and the consistent working of communists for the adoption of the soviet systems all over Germany was such that the occupation of Liepsic by government troops was necessary for the safety of the country, says an official statement issued today to offset criticism from radical quarters and bitter opposition by Liepsic independents. The statement blames the radical press for veiling and distorting facts, encouraging nation-wide unrest and defending the murder of the Saxon minister, Newring. It announces that troops will be withdrawn and severe measures relaxed as soon as order is established.

GROCCERS MEET IN SALT LAKE

(By Associated Press)
SALT LAKE CITY, Utah, June 23.—Retail grocers from every state in the union were in attendance here today at the annual convention of the National Association of Retail Grocers, which convened at 9:30 o'clock this morning and will continue through Thursday, June 26.

John W. Wilcox, vice-president of the Utah Retail Merchants' association, called the convention to order, and following other addresses of welcome and responses, President J. H. Schaefer of Davenport, Ia., delivered his address. Business of the organization during the afternoon session, besides reports of officers, included an address by Leon M. Hattenbach of Denver, who spoke on one of the vital questions affecting the grocers: "Cash and Carry versus Credit and Delivery."

Social features during the convention, to a considerable extent, will take place in the evenings. Numerous excursions to the many canyons around Salt Lake City and Ogden and trips to Salt Air, famous bathing resort on Great Salt Lake, are scheduled for the daytime.

AN IRISH TENOR ATTAINS RENOWN

(Correspondence Associated Press)
LONDON, May 26.—Thomas Burke is the name of a new tenor acclaimed by the British press and public as another Caruso. He sprang into fame the other night at the opening of the Covent Garden opera season when with Mme. Melba he appeared in "La Boheme."

Mr. Burke was born of Irish parents in Lancashire, where he still is interested in pig farming. At St. Joseph's school in Leigh, where he was educated, he was taught music by the Jesuit fathers. Later he studied in Italy under Ernesto Colli.
